

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

L. Frisbie, signified to the committee their willingness to assume the performance of that service gratuitously, but with the hope that the General Assembly in lieu of the compensation that has customarily been allowed for like services, will appropriate an equivalent amount to be expended by the State Library Committee in the purchase of standard religious literature to be placed in an alcove of the State Library, to be set apart for that purpose; and further signified that all resident clergymen would be invited to participate, under their direction, in rendering such service.

The committee respectfully recommend that said association be invited to assume the performance of chaplain service for both houses during the session, with the understanding that the appropriation for the purpose suggested will be made.

WHEREAS, The device, now in general use on the Exchanges and Boards of Trade, and known as "selling short," enables speculators to offer for sale quanti-

ties of grain and other farm products many hundred fold in excess of the amount of such articles which are actually produced, and

WHEREAS, Said device provides no means for discovering, but, on the contrary, prevents a disclosure of how much of the articles so offered for sale is real or actual product and how much thereof is fictitious or in excess of the quantity actually produced, and in consequence thereof, the excessive or fictitious quantities so offered have all the force and effect which an actual over production could have in depressing the market price of said articles, and in preventing the farmer from realizing the fair and reasonable price he would obtain for his products if the value thereof was determined by the law of supply and demand rather than by the manipulations of this speculative and gambling device, and

WHEREAS, The trades or deals in farm products which are continually being made by the speculators through the use of said device on the exchange and boards of trade where the values of such products are fixed and determined, have become so numerous and grown to such magnitude that they constitute the chief cause of depreciation in the value of farming lands and of the general depression which has existed for several years in the farming industry of the country, and

WHEREAS, it is manifest that the wrongs thus inflicted on American farmers cannot be remedied by State legislation without such legislation could be uniform in all of the several states, to obtain which would be impracticable, and that the remedy can only be secured through congressional enactment, now, therefore, be it

Resolved by the House of Representatives, the Senate concurring therein: That the Senators and Representatives in Congress assembled be and are hereby requested to enact the bill introduced at the present session of Congress by Mr. Hatch of Missouri, being House bill No. 2699, entitled "A bill defining 'options' and 'futures,' and imposing special taxes on dealers therein, and for other purposes," or to enact some other law and at the earliest possible date, whereby the practice of selling farm products by persons who do not own the same, and commonly known as "short selling," shall be so regulated and restricted that the value of articles actually produced by farmers shall not be beaten down, and, in large measure destroyed, by the imaginary and fictitious product continually being offered for sale by the speculator and gambler in these products.

JOINT RESOLUTION NO. 3.

Instrutting our Senators and requesting our Representatives in Congress to procure the passage of an act of Congress which shall provide for indemnifying the *bona fide* settlers upon what is known as Des Moines river lands, whose titles have failed.

WHEREAS, On August 8, 1846, an act was passed by congress, granting certain lands to the Territory of Iowa, to aid in the improvement of the navigation of the Des Moines river, "From its mouth to the Raccoon Fork, one equal moiety * * * in a strip five miles in width on each side of the river," and,

WHEREAS, The words, "On each side of the river," was construed by the Commissioner of the General Land Office, by the Secretary of the Treasury, by the Attorney-General and by other officers of the government, at one time to extend throughout the entire length of said river, and at another time as only extending to the Raccoon Fork, leaving the extent of said grant entirely unsettled, and,

WHEREAS, The supreme court of Iowa, at its December term, 1859, in the case of *Railroad Company vs. Litchfield*, (23 How., 66), decided that the Raccoon Fork was the northern limit of the grant, and,

WHEREAS, The State of Iowa had patented a large portion of the grant above the Raccoon Fork, relying upon the decisions of the land department and officers of the government, and,

WHEREAS, On the 22d of March, 1861, a joint resolution of congress was passed, confirming the title held by "*bona fide* purchasers under the State of Iowa," and on the 12th day of July, 1862, congress passed an act extending the grant from the Raccoon Fork to the northern line of the State, and,

WHEREAS, Prior to the passage of said last named act, a large number of persons had settled upon, pre-empted and made homesteads upon said lands in good faith, believing that the said lands were government lands, and subject to pre-emption, homestead and entry, and,

WHEREAS, The Legislature of the State of Iowa passed "An act authorizing the appointment of a commission to examine and report upon the losses of settlers and claims upon Des Moines River lands, on account of failure of title, and provide for applying to Congress for relief, the same being House file No. 1, chapter 7, of the Acts of the Fourteenth General Assembly, approved January 31, 1872, and,

WHEREAS, Under said act, the Commission was appointed for the purposes recited in the title thereof, and under said act did examine and report upon the losses of settlers and claimants upon said lands, and the same was printed and all the expenses thereof paid by the State under said act; and,

WHEREAS, The governor of the State of Iowa appointed Commissioners to go to Washington to present said claims made by settlers to try to secure an adjustment of the same, and an act of Congress provided therefor; and,

WHEREAS, It was contended by a portion of the settlers upon said lands that they had a legal and lawful title to said lands, their entries having been approved by the Land Department and certificates of entry issued by the proper officers of said Land Department of the United States, and in many cases patents having been signed by Abraham Lincoln, president of the United States, and that therefore they were unwilling at that time to receive compensation for their losses, but insisted upon their right and title to the lands in question; and,

WHEREAS, After much litigation between private parties claiming under such entries made in the land office on the one hand, and on the other by parties claiming through the river land chain of title, so-called, until during the year 1890 a suit was commenced by the Attorney-General of the United States, in the name of the United States against the Des Moines Navigation and Railway Company *et al.*, holding through the said river land title, claiming that said lands still remained the property of the United States and of its grantees through patents, entries, etc., which said suit is No. 987, tried at the October term 1891, argued November 19, 1891, before a full bench, and decided January 11, 1892, which was an appeal from the Circuit Court of the United States, Northern District, Central Division of Iowa, and in which case the Supreme Court has decided finally and thereby making an end of litigation as to this title, that the title of the Des Moines Navigation and Railway Company and its grantees was good as against the holders of the title by homestead pre-emption, entry and patents; and,

WHEREAS, Some of these settlers have resided on the lands referred to for a period of nearly forty years and made valuable improvements, believing that they had good and perfect title to said property; therefore,

Be it resolved by the General Assembly of the State of Iowa, That our Senators be instructed and our Representatives in Congress be urgently requested to procure the passage of an act of Congress which shall provide for indemnifying all bona fide settlers upon what is known as Des Moines River Lands, whose titles have failed,

Be it further resolved, That the Secretary of State be directed to send a copy of these resolutions to each of our Senators in Congress and members of the House of Representatives.

Hence I vote no.

J. DOLPH.

Mr. Mitchell moved that the minority report be received and placed on the records of the journal of the house.

Motion prevailed.

The following is the

MINORITY REPORT:

MR. SPEAKER : The undersigned, members of the Committee on Judiciary, to which was referred the resolution of Mr. Johnson, of Bremer county, relating to six days' pay of employees, would submit the following as a minority report from such committee :

The pay of the employees of the House, except as provided for by resolution passed by the House at this session, is fixed by Section 12 of the Code of 1873, as amended by Chapter 38 of the Acts of the Eighteenth General Assembly, and Chapter 52 of the Acts of the Nineteenth General Assembly, and the wages so established are in a certain sum per day for each.

Chapter 3 of the Acts of the Fifteenth General Assembly provides for warrants to be issued upon certificate of the presiding officer of the House to each officer of employe for the amount due for services rendered. Neither of these statutes provides expressly for pay of any officer or employe for Sunday or for any other day when no services are rendered.

It was the understanding of this committee that it was to report upon the legal question as to whether or not these statutes required expressly or by construction, that officers and employees of the House should be paid for Sunday, whether they were employed necessarily upon that day or not in the public service. A majority of the committee has decided that each officer or employe is entitled by statute to pay for every day from the date of his appointment until the last day of the session, both inclusive; to this conclusion we can not assent; to draw such a conclusion from the statute cited, a forced rule of construction must be adopted; these statutes do not in any express terms provide for Sunday pay nor pay for any period of disability.

We have in section 4072, Code of 1873 (section 5438 McClain's Code), an expressly prohibitive statute, making it a criminal act punishable by fine and imprisonment, to engage in any labor upon the Sabbath, works of necessity or charity only excepted. Under this statute our courts have uniformly held that contracts made upon Sunday are void and cannot be enforced, and the rule is likewise well settled that a recovery of pay for labor performed on Sunday cannot be had unless the labor is shown to be a work of necessity or charity, or within the other exceptions of the statute. Now, in the case of this prohibitive statute which is, until its repeal, equally binding upon members of this Legislature and employes of this House, as upon the other citizens of Iowa, we cannot construe the statutes first named to require or even to permit the payment of officers or employes for services which they do not and cannot perform. We cannot believe that a positive criminal statute can be repealed by implication, or that any language of the statute providing pay for employes and officers of this House can be construed as repealing the section prohibiting Sunday labor. Neither can we construe the statute to require pay to be given to an employe or officer who becomes by some disability unable to perform, and who does not perform, the duties required of him; although the majority of the committee have construed that statute to require payment whether the employe remained at work or departs.

For these reasons we would report that we recommend that the resolution be amended by adding, any other officers whose work is necessary upon Sunday, and that as amended, such resolution be adopted.

(Signed)

JOHN F. DAYTON.
JOHN P. HORNISH.
R. W. BRIGGS.
C. H. ROBINSON.
J. C. BEEM.

The population of the United States is largely made up of persons who have come from foreign lands; they have become our best citizens, and are loyal to the best interest of the people; but many of them, coming to this country in mature life, have not had the time or opportunity to fully acquire the English language, and it is necessary that any document, to be easily read and fully comprehended, should be printed in their native tongue. This is the reason and object of this resolution as amended by the Senate, and I heartily favor it, as a just recognition of the worth of our foreign born citizens, and of their right to share in the documents printed at the expense of the State.

Therefore I vote, No.

The officer or authorities charged with the printing and distributing of the the ballots shall provide and retain at his or their office an ample supply of ballots, in addition to those distributed to the several voting precincts, and if at any time, on or before the day of election, the ballots furnished to any precinct shall be lost, destroyed or exhausted, before the polls are closed, on written application signed by a majority of the judges of such precinct, or signed and sworn to by one of such judges, he shall immediately cause to be delivered to such judges, at the polling place, such additional supply of ballots as may be required and sufficient to comply with the provisions of this act.

SEC. 18. The secretary of state and the chairmen of the state committees of the two political parties casting the highest vote and the next to the highest vote in the state, shall prepare full instructions for the guidance of voters at all elections, as to obtaining ballots, as to the manner of marking them, and the method of gaining assistance, and as to obtaining new ballots in place of those accidentally spoiled; and they shall cause the same to be printed in large clear type on separate cards, to be called cards of instruction. Each officer having charge of printing the ballots shall cause to be printed on tinted paper, of different color from the official ballot, ten or more copies of the form of the ballot provided for each voting precinct, which shall be called specimen ballots. The secretary of state shall furnish cards of instruction to the number of ten for each precinct in the respective counties of the state, and the said cards of instruction and the sample ballots shall be delivered to the precincts in the same manner and at the same time as is herein provided for furnishing ballots.

SEC. 19. At the opening of the polls in each polling place the seals of the packages shall be publicly broken and the packages opened by the election board, and ballots shall be delivered to the officers having charge of the same, as hereinafter provided. The cards of instruction shall be immediately posted at or in each voting compartment provided, in accordance with this act, for the marking of the ballots; and not less than three such cards and five specimen ballots shall be immediately posted outside of the poll room, and not more than one hundred feet and not less than fifty feet away from said poll room.

SEC. 20. The board of supervisors of each county shall, at their September meeting of each year, and on or before the third Monday in September, appoint three judges and two clerks of election and two ballot officers to serve for one year for each precinct in the several counties. Not more than two of said judges of election shall belong to the same political party, and there shall be one clerk and one ballot officer from each of the two political parties casting the highest and next to the highest vote in said county at the next preceding election. The officers above required to be selected shall be from lists filed with the county auditor by the chairman of the county committees. The said list shall be composed as follows:

Five persons by each committee, residents of each precinct, from which shall be chosen the judges of election; five persons in the same manner for clerks of election; and five persons in the same manner for ballot officers. The lists so filed by the committees shall be used by the county auditor in filling any vacancies that may occur in any of the officers above appointed; and the county auditor, when notified in writing by the chairman or secretary of either of the above named county committees that a vacancy has occurred, naming the person whose place has become vacant, shall appoint from said lists a person of the same party as the one causing such vacancy; *provided*, that the board of supervisors be not then in session, in which event said board shall fill said vacancy in the same manner as the auditor is herein required to do. If any of the judges, clerks or ballot officers provided for are not present at the opening of the polls, then vacancies so occurring shall be filled by those officers present by the appointment of qualified electors, preserving the representation of the different political parties. In townships or wards wherein all the votes cast at the last preceding election were for the candidates of one political party, the election officers provided for herein shall all be from that party, unless the county committee of the other political party, casting at the next previous election the largest number of votes, shall, on or before the first Monday in September, request the board of supervisors to give them representation upon the election board of such township or ward, in which case one clerk and one ballot officer shall be appointed from names presented by such committee of residents outside such township.

SEC. 21. The board of supervisors in each county shall provide for each voting place a suitable number of voting compartments in which voters may conveniently mark their ballots, so that, in the marking thereof, they may be screened from the observation of others, and a guard rail shall be so constructed and placed that only such persons as are inside can approach within six feet of the ballot boxes and of such voting compartments. The compartments shall be so placed that the judges of election can see whether more than one person enters one of them at one time. The number of such compartments shall not be less than one for every sixty voters and fraction thereof, qualified to vote at such polling place, and not less than three in any precinct, and not less than five in any voting precinct of a city. Said compartments and rails shall be so constructed that when not in use they may be taken apart and placed in charge of the township or city clerk, or town recorder of the township, city or town in which such election is held. When not in use the city or town shall defray the expense of caring for them. No persons other than the election officers and voters admitted, as hereinafter provided, shall be permitted within said rail, except by authority of the election officers for the purpose of keeping order and enforcing the law. Each voting compartment shall be kept provided with a shelf and a stamp and ink pad.

SEC. 22. Any person desiring to vote shall give his name, and, if requested so to do, his residence to one of the ballot clerks, who shall thereupon announce the same in a loud and distinct tone of voice, clear and audible. The ballot clerks shall give him one, and only one ballot, properly folded, upon the back of which they shall write their initials in the blank space marked for that purpose. Besides the election officers, no voter in excess of the number of voting compartments provided, shall be allowed in said enclosed space at one time.

SEC. 23. On receipt of his ballot the voter shall, forthwith, and without leaving the enclosed space, retire alone to one of the voting compartments so provided, and shall prepare his ballot by marking with the official stamp in the square

under the name of his party at the head of his ballot. If stamped thus, such ballot shall be counted for all the nominees of such party whose names appear on the ballot in that column, except such as he may erase. If he should desire to vote for other candidates, he must erase the name of the candidate on his own ticket for whom he does not desire to vote, and must stamp the square after the name of the candidate he wishes to vote for, or write the name of that candidate in the blank space under the name erased. In case the name of the candidate for whom he does not wish to vote is not erased, and another name is written under the name of such candidate, or the square after the name of another candidate for the same office is stamped, such vote shall not be counted for either of the candidates for that office. Before leaving the voting compartment the voter shall fold his ballot, without displaying the marks thereon, in the same way it was folded when received by him, and he shall keep it so folded until he has voted. He shall vote in the manner now provided by law before leaving the enclosed space, and shall show the judges of election the official endorsement and initials of the ballot officers thereon before voting. He shall mark and deposit his ballot without undue delay, and shall quit said enclosed space as soon as he has voted. No such voter shall be allowed to occupy a voting compartment already occupied by another, nor to remain in said enclosed space more than ten minutes, nor to occupy a voting compartment more than five minutes, in case all of such compartments are in use and other voters are waiting to occupy the same. No voter, not an election officer, whose name has been placed on the list of voters as provided by law, shall be allowed to re-enter said enclosed space during said election. It shall be the duty of the judges of election to secure the observance of the provisions of this section and of other sections relative to the duty of election officers, and for that purpose to provide not exceeding two guards or police officers where the same are not already provided by law. If any voter spoils a ballot, he may successively obtain others, not exceeding three in all upon returning each spoiled one. The ballots thus returned, together with those not distributed to the voters, shall be returned to the officer from whom they were received at the time of making the returns of election. Such officer shall count and receipt for all ballots returned, and preserve those of each precinct separately for the period of one year.

SEC. 24. Any voter who declares to the judges of election that by blindness or other physical disability, or by reason of being unable to read, he is unable to mark his ballot, shall, upon request, receive the assistance of two of the election officers, of opposite political parties in the marking thereof, and such officers shall certify that it was so marked with their assistance, and shall thereafter give no information regarding the same. Any officer of election may, in his discretion, require such declaration of disability to be made by the voter under oath before him, and he is hereby qualified to administer the same. Neither of the officers who assist in marking the ballot shall in any manner attempt to influence the vote of the elector whom they are assisting.

SEC. 25. If the voter marks more names than there are persons to be elected to any office, or if for any reason it is impossible to determine the voter's choice for any office to be filled, his ballot shall not be counted for such office. No ballot without the initials of the ballot officers and the official endorsement shall be deposited in the ballot box, and none but ballots provided in accordance with the provisions of this act shall be counted. Ballots not counted shall be marked "defective" on the back thereof, and shall be preserved as now provided by law.

SEC. 26. In cases where the law requires a special election to fill a vacancy, the time for filing certificates of nomination and nomination papers, shall not be less than five days before such special election.

SEC. 27. This act shall not apply to school elections. In elections wherein an assessor is to be chosen for a township with territory outside of an incorporated town which is within the boundaries of such township, such township and incorporated town not being separated for voting purposes, the votes cast by the electors of such township for such assessor shall be upon separate ballots and a separate ballot box shall be provided to receive them. Separate ballots and ballot boxes shall be provided for candidates for road supervisor in the respective road districts. No nominations for road supervisors need be made and the ballots provided shall be blank and the names of candidates written thereon. When any amendment to the constitution is submitted, separate ballots and ballot boxes shall be provided as now required by statute. When any question is submitted to a vote of the electors under the provisions of law, the votes upon such question shall be upon separate ballots and placed in a separate ballot box.

SEC. 28. Any person entitled to vote at a general election in this state shall, on the day of such election, be entitled to absent himself from any services or employment in which he is then engaged or employed for a period of two hours between the time of opening and closing the polls, and such voter shall not, because of absenting himself, be liable to any penalty nor shall any deduction be made on account of such absence from his usual salary or wages; provided, however, that application for such leave of absence shall be made prior to the day of election. The employer may specify the hours during which said employee may absent himself as aforesaid. Any person or corporation who shall refuse to an employee the privilege hereby conferred, or shall subject an employee to a penalty or deduction of wages because of the exercise of such privilege, or shall, directly or indirectly, violate the provisions of this section, shall be deemed guilty of a misdemeanor and be fined in any sum not less than five dollars (\$5), or more than one hundred dollars (\$100).

SEC. 29. A voter who shall, except as herein otherwise provided, allow his ballot to be seen by any person with the intention of letting it be known how he is about to vote, or place any distinguishing mark upon his ballot, or shall make a false statement as to his inability to mark his ballot, or any person who shall interfere or attempt to interfere with any voter when inside the room where the election is held, or who shall endeavor to induce any voter to show how he has marked his ballot, or who shall deposit or offer to deposit in the ballot box a ballot other than the one received from the ballot clerks, shall be punished by a fine of not more than one hundred dollars or by imprisonment in the county jail not more than thirty days or by both such fine and imprisonment, in the discretion of the court, and it shall be the duty of every election officer to secure the enforcement of this provision.

SEC. 30. Any person who shall, prior to any election, willfully deface or destroy any list of candidates posted in accordance with the provisions of this act, or who shall willfully deface, tear down, remove or destroy any card of instruction or specimen ballot printed or posted for the instruction of voters, or who shall willfully remove or destroy any of the conveniences or supplies furnished to enable a voter to prepare his ballot, or shall willfully hinder the voting of others, shall be punished as provided in the preceding section.

SEC. 31. Any person who shall falsely make, or willfully deface or destroy, any certificate of nomination or nomination paper, or any part thereof, or any letters

of withdrawal; or sign any such certificate or paper contrary to the provisions of this act; or file any certificate of nomination or nomination paper, or letter of withdrawal knowing the same or any part thereof to be falsely made; or suppress any certificate of nomination or nomination paper or any part thereof which has been duly filed; or forge or falsely make the official endorsement on any ballot; or willfully destroy or deface any ballot, or shall take or remove any ballot outside of the enclosure provided for voting, before the close of the election, or willfully delay the delivery of any ballots, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail not more than ten months, or by both such fine and imprisonment in the discretion of the court.

SEC. 32. Any public officer, or any person upon whom a duty is imposed by this act, who shall willfully neglect to perform such duty, or who shall perform it in such a way as to hinder the object of this act, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail not more than ten months, or by both such fine and imprisonment in the discretion of the court.

Absent or not voting:

Doane, Briggs, Hinman, Hornish, Warren—5.

So the bill passed and the title was agreed to.

The following gentlemen explained their votes as follows:

I am willing to vote for a bill to protect the makers of notes from liability in

case of notes procured by fraud, and for that reason have voted for the substitutes offered by the gentleman from Franklin, and the gentleman from Hamilton, but I am not willing to reduce the circulating medium of the State more than one-half, by casting such a cloud upon drafts, bills, and checks as will drive them out of use in whole or in part, as would be done by this bill, should it become a law, I therefore vote nay.

C. H. ROBINSON.

Believing this bill is in the interest of money sharks and curb-stone brokers, who have always been in the past the purchasers of discredited paper, I vote no.

SOWERS.

Believing that the provisions of this bill are too sweeping in its character, that the relief from the evils complained of are not obtained without impairing the value of nearly all commercial paper to the detriment of the very class for whom relief is asked, yet there being an urgent demand for some measure of relief, and this bill appearing to be the best that can be had at this time, am willing the experiment shall be tried, I vote aye.

H. T. SABERSON.

I do not wish to vote for any measure that throws suspicion upon all commercial paper, and bids for fraud and crime.

W. M. SHARPÑACK.

As I think this bill will work a hardship on makers of promissory notes, I vote nay.

CRAWFORD.

MR. SPEAKER—I do not like this bill, but as there is a demand for some such measure, and I have promised to vote for any bill that can be agreed upon, and as Solomon enumerates among the qualifications of a man who will get to heaven, one who swears to his own hurt, and changes not, I vote for this bill.

J. DOLPH.

The minority of the Committee on the Suppression of Intemperance submitted the following report:

MR. SPEAKER—The undersigned members of the Committee upon Suppression of Intemperance would state; that they dissent from, and protest against the report made by a majority of said Committee recommending the indefinite postponement of House file No. 25 for the following reasons:

First. That the present prohibitory liquor law, which has been in force for more than eight years ; which has been aided by severe penalties inflicted without trial by jury, and to enforce which constitutional rights and privileges which inure to every citizen have been taken away ; have proven inoperative and is either openly or secretly violated throughout the State.

That no remedy is suggested, if the present law be retained, except to take from the citizens of the State the right of local self-government, and to place the enforcement of the laws in the hands of persons who are not elected by or accountable to the people.

Second. That House file No. 25 will afford complete relief for the illegal and unrestricted sale of intoxicating liquors in localities where the inhabitants are opposed to prohibition, and will prevent wherever its provisions are adopted, both the open and secret sales of liquors in violation of law, while permitting the retention of the present prohibitory statute in municipalities in which its friends are in the majority.

Third. That House file No. 25, if enacted into law, wherever license is issued under its provisions, will prevent the sale of intoxicants to improper purchasers, will compel the keeping of orderly houses, will furnish security for the payment of all fines and any resulting damages sustained by individuals, and will create additional sources of revenue.

Fourth. That the principles embodied in House file No. 25 have been fully presented to the people of this State, and have received the sanction of their votes at two successive State elections.

Wherefore, we protest against the adoption by the House of the report of the majority of the committee, and the defeat thereby of a measure so necessary, as we view it, to the public welfare.

The following report of the Soldiers' Monument Commission was taken up, ordered printed in the journal and then referred to the Committee on Military.

REPORT OF THE BOARD OF COMMISSIONERS OF THE IOWA SOLDIERS' MONUMENT.

To the General Assembly of the State of Iowa:

The Board of Commissioners of the Iowa Sailors' and Soldiers' Monument have the honor to submit the following report of their doings for the period beginning with their appointment up to February 4, 1892.

The act creating this commission and defining its duties is that of chapter 136 of the Twenty-second General Assembly, as follows:

"SEC. 2. There is appropriated the sum of \$5,000, or so much thereof as may be necessary to be expended under the direction of the executive council, in preparing a site and foundation on the capitol grounds for the erection of a monument for the purpose of perpetuating an expression of the patriotism, courage and distinguished soldiery bearing of their fellow citizens as manifested during the war of the rebellion. And the Governor of the State, James Harlan, Samuel Kirkwood, George G. Wright, Edward Johnstone and D. N. Richardson are hereby appointed a commission with authority to advertise for and examine plans for such monument and report to the next General Assembly upon the plans submitted."

This report as required was duly made and is now on file in the office of the secretary of state and to which reference is hereby made.

The act of the Twenty-third General Assembly—chapter 129—relating to the memorial as follows:

Be it enacted by the General Assembly of the State of Iowa:

SECTION 1. So much of section 2 of chapter 136 of the laws of the Twenty-second General Assembly as created and appointed an Iowa Soldiers' and Sailors' Monument commission, is hereby re-enacted and continued in force. The commissioners named in said section 2 are continued in office, and Hon. E. Townsend and L. E. Mitchell are added thereto. They shall constitute and be known as the "Board of Commissioners of the Iowa Soldiers' and Sailors' Monument." Any vacancies occurring in said Board shall be filled by appointment to be made by the Governor from nominations to be made by the remaining commissioners. But every person so appointed shall be selected from the same political party to which his predecessor belonged. The Governor shall be ex-officio president of said board.

SEC. 2. In addition to the duties named in said section 2, chapter 136, of the laws of the Twenty-second General Assembly, said commission is hereby requested and directed to consider and report to the Twenty-fourth General Assembly their views as to whether a Monument, a Memorial Arch, a Memorial Hall or a Memorial Hall and Monument combined, will best express on the part of the people of the State of Iowa, their appreciation of the patriotism, courage, and distinguished soldierly bearing of their fellow citizens, in the War of the Rebellion. And if, in the judgment of said Board of Commissioners, it shall be desirable to do so, they are hereby given authority to advertise for, procure and examine plans for either or any of these forms of expression, as aforesaid and report the same to the next General Assembly.

SEC. 3. For the purpose of carrying out the intent of this act the sum of five thousand dollars is hereby appropriated, or so much thereof as shall be necessary, to be expenses under the direction of the Executive Council; and such compensation for services shall be allowed to the members of such Board of Commissioners as the Executive Council may decide, such payment to be from the amount herein appropriated.

SEC. 4. That of the moneys which may come into the State treasury in pursuance of an act of Congress refunding to the State the amount paid to the general government under the direct tax act approved August 5, 1861, so much as may remain after these shall have been paid therefrom the amount due and payable under the constitution of this State, from the general government fund of the State to the school fund of the State, as contemplated by the provisions of section 1 of chapter 194, of laws of Twenty-second General Assembly, shall be held by said treasurer to await the action of the Twenty-fourth General Assembly in the matter of the erection of said monument or memorial structure.

Approved April 24, 1890.

In pursuance of the foregoing acts the commission has held five meeting as follows: December 11, 1888, April 17, 1889, June 19, 1889, June 25, 1891, July 9, 1891; three meetings adjourned for want of quorum, and meeting of February 3, 1892.

At the first meeting steps were taken as set forth in the report to the Twenty-third General Assembly of date January 14, 1890, for the securing of designs for the contemplated monument to be erected

"for the purpose of perpetuating an expression on the part of the people of the State of Iowa, of their appreciation of the patriotism, courage and distinguished soldiery bearing of their fellow citizens, as manifested during the war of the rebellion."

In consequence of advertisements published and prizes offered by the commission, there were received at the office of the Governor of Iowa, forty-eight designs and plans for consideration, and a second meeting of the board was held on the 19th day of April at Des Moines, for the purpose of viewing said plans, and for transacting such other pertinent business as might appear at the time.

The second meeting of the commission was held at the executive office as called. At this meeting the forty-eight plans were presented and arranged, two days were devoted to the careful and critical examination and discussion, and the meeting adjourned without having declared any definite and final opinion.

The matter was deemed to be of unusual importance. The commission was surrounded by a display of plans and designs not a few of which came from studios of most talented artists, and were not to be passed upon hastily.

Besides the members of the commission had various ideas as to character and fitness. They had been appointed from the people without previous consultation as to their ideas or wishes, and came into council with no settled plans. Some favored the columnar form, others the arch, and others still favored a memorial hall. Had the legislative instruction been explicit as to either, the labor would have been less imposing and stringent.

Under the circumstances there was no other course but to consider, discuss, compare, and so work up to a conclusion.

There was one admitted conclusion—that whatever was done should be worthy of the great state of Iowa. If the patriotism of the state and its brave soldiers were to be honored as meant by the act, then the state must first honor itself. This could not be done with any small outlay or inferior building.

The arch was discussed. Where in Des Moines could an arch be properly placed? If leading to the capitol grounds it would be seriously dwarfed by the capitol building, and could be seen to advantage from no point of view.

Then the committee looked out into the world for examples of fine arches. The triumphal arch of Napoleon in Paris, was the grandest extant—but that was in the midst of a 500 feet street—the hub of a dozen streets whose radiating spokes reached for miles in every direction. There was no such place in Des Moines for an archway like that. Then to Berlin. Her triumphal arch stood at the end of Unter

den Linden—a 300 feet street—the center of many vistas. Then to Milan. Its magnificent arch rises in the grand parade. There was no grand parade within or near Des Moines nor would be—nor any broad streets. Then to Rome. The arches of the imperial city were built with reference to the forum in old time Roman days, and Des Moines has no forum in the Roman sense—nor would have. Then to London. The marble arch at Oxford street and Hyde Park corner—a national folly and out of place and character; an eye-sore to the world's metropolis.

An arch must have special fitness as to place and thought or be a sham in monumental art. And so, in time, the arch plan was abandoned all around.

Then the Commission took up the Memorial Hall plan. Such an edifice was in the minds of some of that body and many outside of it. What should be its proper uses? A patriotic storage room within imposing walls and roof, for war-worn battle flags, beneath which Iowa's valorous men had bravely fought, and gained glorious victories. It should be a place for unused arms and trophies—for archives of the war; a place for paintings, marble statues, busts, medallions in stone and bronze—the gallant forms and features of dead heroes of this noble States of mural tablets, martial art and records.

But flags decay and turn to dust, and arms lose interest as years roll on; and as to paintings, marbles, bronzes and the like, the bare, neglected approaches, niches, panels, recesses and walls of the grand rotunda, lobbies and legislative halls of the State's majestic Capitol are wanting much—lacking in material for adornment even to a greater extent than will be filled in a decade of generations. And as to the literature of the war—the State need not build especially for that—its place is in the library of the Capitol, in the libraries of the cities—those of the common school and household.

On looking forth into the world for Memorial Halls as connected with patriotic wars, none such were found. If they exist the Commission was not aware of them. Votive Memorial Halls taking the form of churches, chapels and hospitals, are not unknown, and many such were cited. But Iowa had not been backward or unkind in the matter of Soldiers' Homes or Hospitals. That duty had already been its gracious care, and should be so long as needy veterans or their helpless ones may stand in need of such. Leaving a worthy soldier or his wife or children on the pauper list will never stand to this State's charge. In the opinion of the Commission the decades will soon be past when the soldiers of the late war will have need of hospital. Such edifices being subject to changes and destruction, fall short of a lasting memorial. Soldiers' Homes and Soldiers' Hospitals as applied

to States have but small space in history; but a memorial structure erected to deathless patriotism and valor should exist for centuries. These and kindred considerations ended in settling, in the minds of the Commission, the question as to the Triumphal Arch and Memorial Hall, and left the Monument for its consideration.

In all the world of civilized and enlightened men, the best form of patriotic expression is found in such monument as are made up of base and shaft and capital—plain or decorated, as the case may be. Such expressions are not utilitarian in the usual sense. They speak of that loftier sentiment of the heart and brain—of permanent, patriotic devotion. Our country is not yet rich in art of this character, but has several bright examples.

What other form of building art could take the place in the popular mind of the Washington monument? It is seen of all that come into the nation's capital—be they old or young, rich or poor, friend or foe—come they there for residence or for an hour's stay—they see the monument and catch its thought and meaning. They do not have to seek it out. It towers aloft—it speaks to them. They go home and talk of it—the noblest of all monuments. It speaks, it educates—it is perpetual. Were it a monumental hall that had gone up instead, only the comparatively few would ever see it; fewer still would enter there and half a dozen generations hence it would be well nigh forgotten. But the monument, so long as marble lasts, will stand erect to tell the world its patriotic story—the story of George Washington, the story of the Declaration of Independence, the story of seven years of righteous war for human liberty, of daring deeds, of patriotic trust in God, of deathless heroism.

No four walls and roof and dome could tell the story to the centuries—the story of freedom's triumph as it is told by that stately, cloudcapped monument—symbol of free America.

For what would New England's son exchange their monument at Bunker Hill? What form of wall and roof or hall could take its place within their thoughts? It tells of Concord, Lexington—of that tremendous hour when Warren fell—of Bennington, of Saratoga, Yorktown—of freedom's grandest victories. It stands for all that righteous revolution of human right against inhuman wrongs; it tells of flags now gone to dust, of bravery, hard won battle fields, of hearts of oak that never flinched, of foemen fled, of chains smote off—of men who dared and died that liberty might live.

And the monuments of victory at Baltimore, Annapolis, at Bennington and Gettysburg—those and lesser columns in this land—what arch or what memorial hall could be compared with these and such as these in their patriotic expression?

The commission looked abroad to other civilized lands for emblems of heroic deeds. It found them in England, Belgium, France, Russia, Italy, Scotland, Ireland, Rome, and in Egypt; grand monuments for battles won, for homes secured and countries saved.

What would England take in exchange for Lord Nelson's fluted shaft, that springs aloft from its grand lion base in great Trafalgar Square? that holds its naval chieftain far aloft to announce the victory of the Nile, of Copenhagen, Trafalgar? What other form in walls and roofs could tell the story every day to the myriads that pass that way—the story of famous sea-fights won—the story of those trying times when nerves of steel and walls of oak gave England maritime supremacy. If it were worth preserving, what other form of stone or bronze could daily, hourly, tell the tale to all the passing throng, to all the world that comes that way, unto the heart of London?

And the towering shafts of the Iron Duke—Great Wellington—and Duke of York—of the victory won at Waterloo, of freedom's fight at Bannockburn. What other shape of builders' art could speak so well or impress great deeds upon the minds of men?

Ask the Russian to name his price for the towering shaft and capital—victory crowned—that marks the blood-stained snow of Borodino's fearful field. Ask France for its grand column of Vendome in whose imprinted bronze Napoleon's troops stand forth as rushing to the fray. True, a ruthless mob once chopped it down—but France replaced it speedily and worships it to-day. What other architectural form in all that city of rare walls and fountains, roofs and domes so dear to Frenchmen's hearts?

Look at the towering Bastille shaft that stands for human liberty; and passing on to deathless Rome observe the column Trajan built—that marble poem that has been a wonder in the world for eighteen hundred years—and the near by column Antonine—once torn down but well replaced again.

Go into Egypt. Mighty monolithic shafts—fair symbols of forty centuries of men's heroic deeds and love of country. In India also—Grand Kutab Minar, and Great Azoka's column of victory that antedates this era. These some of the monuments afar—and near—upon the Nile, the Granges, Tiber, Seine, the Thames, the Potomac. In what other form of stone or bronze could countries have so long and well perpetuated their tales of patriotism and victory, and the patriotic prowess of their fallen brave.

These observations, and thoughts like these are what constrained the members of the Memorial Commission to recommend a monument instead of a memorial hall or arch, at their meeting held at

Iowa City, June 19, 1890, and so made their report to the Twenty-third General Assembly.

The action taken by the Legislature upon the report will be found in chapter 129 of the session laws of that assembly. Through some differences of opinion among the Grand Army Posts it was deemed advisable by the Twenty-third General Assembly to take time and look further into the memorial question. The Commission was therefore strengthened by the addition of two or more members, and on the 24th day of June, 1891, a meeting was held at Des Moines to further consider the matter, as directed by the General Assembly. Owing to an informality in the call, the meeting was held to be illegal, and stood adjourned until July 9, 1891, when it met in Iowa City for further action.

After full discussion of the question as presented to the Commission by section 2, chapter 129, of the laws of the Twenty-third General Assembly, the Board unanimously decided that it was unnecessary to make further effort to secure, or to examine further other plans for a memorial structure of any kind, and recommended also the erection of a memorial monument as designed by Harriet A. Ketcham, and of such finding to make report to the Twenty-fourth General Assembly; with the further recommendation that the said General Assembly take prompt steps to secure a site for said monument, and to let the contract for the erection thereof, to the end that the expression of the people contemplated may be insured and take form at the earliest day practicable.

It is the sad duty of this commission to report the death of one of its most able members, Edward Johnstone, who died at his home in Keokuk on the 17th day of May, 1891. At the June meeting following, suitable recognition was made of this sorrowful event by resolutions which are spread upon the minutes. The vacancy was filled by the Governor of Iowa, in the appointment of H. H. Trimble of Keokuk.

No expense has been incurred on the part of this commission since the last report, other than that of attending the meetings that have been held since the act of the Twenty-second General Assembly already referred to, amounting in all to \$633.80, and in all from the date of commission to \$1,639.95.

All of which is respectfully submitted.

D. M. RICHARDSON,
Secretary.

WHEREAS, In several States of the Union the rights of the majority, and in some localities the rights of a large minority to cast their ballot according to law and to have the same counted, has by violence, fraud or manipulation of the election laws been denied them; and

WHEREAS, This state of affairs has existed in these States and localities for many years without any attempt to remedy the same, greatly to the discredit of said States themselves, and also a reproach upon the good name of the nation as well; now, therefore,

Be it resolved by the General Assembly of the State of Iowa, That our Senators and Representatives in Congress are hereby requested to adopt a national Australian ballot law, which shall be uniform in its character, under the provisions of which all ballots for members of Congress and electors for President and Vice-President shall be cast.

DES MOINES, IOWA, February 21, 1892.

To the members of the House of Representatives, Twenty-fourth General Assembly:

GENTLEMEN—The following resolution was adopted by the House on Friday, February 19, 1892:

Resolved, That the Chief Clerk of the House of Representatives be and he is hereby requested and directed to furnish to the House a report showing

First, The condition of the records of the House at this date, relative to the entry of the same upon any "Journal" book.

Second, The amount of work necessary to be done to bring said journal fully up to the work of the House on or before March 25, 1892.

In response to the first inquiry, I would say that the original journal of the House of Representatives of this General Assembly, has been carefully kept and preserved upon paper known as "legal cap" and is now on file among the records of this body. In this original journal is kept the entire proceedings of the House, including all motions, whether written or verbal and their disposition, introduction of bills and all other matters and their final disposition.

As to the second proposition contained in the above resolution, I have given it careful consideration, and it is my candid opinion that in order to do the work contemplated, it would require the services of not less than five men of good clerical attainments. Under the rules of the House, the force under the direction of the chief clerk is grossly insufficient to do the work now required of the clerks, and I take occasion here to officially lay before the House the fact that if nothing is done to increase this force, disorder, confusion and bad work generally, will inevitably result to the records of this body. To do the additional work required in transcribing the journal as contemplated by the resolution, and keep the same in condition to be thus transcribed will require the services of at least five men.

This estimate is, in my judgment, a minimum.

Respectfully submitted,

CHAS. BEVERLY, *Chief Clerk*,

On motion of Mr. Van Gilder, the above was referred to the Committee on Compensation of Public Officers.

MINORITY REPORT.

MR. SPEAKER:—The undersigned members of the Committee on Domestic Manufactures, beg leave to report that they are unable to agree with the majority of said committee in recommending the indefinite postponement of House file No. 105 for the following reasons:

First. That under the present law intoxicating liquors can legally be sold for medical, mechanical, culinary and sacramental purposes, but no part of the same can be manufactured in the State of Iowa for these purposes, or for any one of them.

Second. That such discrimination against ourselves and in favor of other states, we believe to be unjust in principal and impolitic in business.

Third. That the annual exportation of intoxicating liquor from the United States aggregates nearly three million dollars.

Fourth. That in depriving the citizens of our State of their proportion of this traffic, is a serious impediment to their prosperity, without any corresponding benefit therefrom.

Fifth. Believing that the citizens of Iowa should be permitted to manufacture whatever they may lawfully use, and ship from the State whatever the commerce of the civilized world recognizes as a legitimate article of traffic, we therefore report that, in our judgment, House file No. 105 should pass.

SPEAKER—Your Committee on Suppression of Intemperance, to whom was referred joint resolution, No. 7, a resolution proposing to amend the constitution so as to prohibit the manufacture and sale of intoxicating liquors as a beverage within the State, beg leave to report that they have had the same under consideration, and have instructed me to report the same back to the House with the recommendation that the same do pass.

BRYSON BRUCE, *Chairman.*

Ordered passed on file.

The following

MINORITY REPORT

was offered:

MR. SPEAKER—We the undersigned members of the Committee on Suppression of Intemperance hereby report that we are unable to agree with the majority of said committee in their report for passage of joint resolution No. 7, for the following reasons:

First. Because there is at present no need of such an amendment of the Constitution, there being already upon the statute books of this state a stringent prohibitory liquor law, covering the same subject.

Second. We believe that the harsh prohibitory law now in force is insufficient to accomplish the purpose for which it was enacted, that any amendment to the constitution directed to the same purpose will not strengthen the present statutory enactments.

Third. We believe this resolution to be but a dilatory measure by which it is sought to evade and delay for two years more the relief demanded by the people, and which they are expecting this legislature to give them.

We would, therefore, report and recommend that said joint resolution be indefinitely postponed.

The following

MINORITY REPORT

was submitted :

MR. SPEAKER—A minority of your Committee on Printing, beg leave to present a report dissenting from the majority upon the disposition of the resolution relating to the Governor's Message, and Inaugural Address, adopted by the House on January 23d, as amended by the Senate on January 28th, and referred to this Committee on February 5th, for the reasons:

First. We believe experience fully justifies a return to the policy formerly pursued by this State in printing the Governor's Message, and Inaugural Address, in foreign languages, for the benefit of those citizens who, coming to this State in mature years, unable to read the English language, will be deprived of the information contained in these documents if they are printed exclusively in English. We believe them to be good citizens, patriotic, admirable acquisition to the state's population, and in a full proportion taxpayers. The languages spoken by them are in many cases taught in the public schools at public expense, and to that extent have the stamp of official recognition. They are citizens the state would not willingly lose, the immigration of whose compatriots is encouraged and desired, and we think them entitled to a clear understanding of the recommendations of the Governor.

Second. We are of the opinion legislative precedents do not support indefinite postponement of a resolution passed by this House, transmitted to the Senate, and returned to this body with amendments in which the concurrence of the House is asked.

We therefore recommend that the House do concur in the Senate amendments to the concurrent resolution relative to the printing of the Governor's Message, and Inaugural Address.

Respectfully submitted,

SPRINGER.

JOHN H. HORSTMAN.

J. M. YOST.

A. ADDIE.

The following minority report was also filed and read:

The undersigned, the minority of the Committee on Schools and Text Books, do not agree with the majority of the committee in its recommending for indefinite postponement of House file No. 266, for the following reasons:

First. The intelligence of a State depends upon the intelligence and cultivated minds of the masses, instead of superior education of the few. The great care and diligence of legislators should be to place within the easiest possible reach of the entire youth of the State the best means for utilizing the advantages and opportunities of the "people's colleges," the common schools.

Second. We believe the great variety of text books found at present in our common schools is an insuperable obstacle in the progress of educating our children for the duties of life. The annual expenditure of nearly \$6,000,000 for educational purposes in our State would be greatly augmented in its results by a system of uniform text books throughout the State, whereby a large per cent of our teachers' time and energy could be used in securing to the boys and girls of our State the fundamental principles of an education and a great saving in expense to parents and guardians who buy books. Therefore, believing that the best interests of the State demand a more liberal education of the masses, and the means to that end are worthy of the most careful consideration of the legislative branch of government, therefore we dissent from the opinion of the majority of the committee on House file No. 266, and ask for its consideration.

Signed,

E. C. SPAULDING,

MINORITY REPORT

The following minority report was submitted by a minority of the Committee on Telegraphs, Telephones and Express:

MR. SPEAKER—We the undersigned members of the Committee on Telegraphs, Telephone and Express, hereby report that we are unable to agree with the majority of the committee in their report for indefinite postponement of House file No. 260, for the following reasons:

First. Because the telegraphs, telephones and express companies are corporations of a quasi public nature similar to railroads and should be subject to supervision and control in like manner that the interests of the public may be more fully protected.

Second. Under the present law the said companies are wholly unrestricted and are free to impose on a suffering public at will, enriching their coffers and increasing their dividends. Their charges are exorbitant, wholly beyond reason for the services they render. No redress can now be had for the excessive, arbitrary and unequal charges and ratings made by said companies. The public must yield to their dictation or do without the benefits of their services.

Third. No company or corporation of a quasi public nature should be permitted to realize more than a reasonable per cent or interest upon the capital actually employed over and above necessary operating expenses. All benefits over and above this should be enjoyed by the general public.

We would therefore beg leave to report and recommend that House file No. 260 do pass.

W. M. SHARPNACK.

RESOLUTIONS OF THE BAR ASSOCIATION OF INDIANOLA, IOWA.

At a meeting of the Bar Association of Indianola, Iowa, held on March 3, 1892, the following resolutions were adopted unanimously:

Resolved, That this association protests against the passage of Senate file No. 282, entitled "A bill for an act creating and establishing an appellate court, and defining the powers and jurisdiction thereof."

First. Because such intermediate court would be not only unsatisfactory to the legal profession, but also to the litigants who desire that appeals from *nisi prius* courts shall be heard and determined by the supreme court only.

Second. Because many of the most important law questions arise in cases involving less than \$1,000.

Third. Because such intermediate court would tend to create confusion instead of uniformity in final decisions.

Fourth. We respectfully recommend that whatever legislation may be necessary to relieve the supreme court should be by classification or subdivision of the work of said court among the members thereof.

On motion, the secretary of this meeting is hereby instructed to forward copies hereof to our Senator and Representative at Des Moines with request that the same be introduced and referred to the Twenty-fourth General Assembly of Iowa.

I hereby certify that the above resolutions were duly passed as aforesaid by the association aforesaid on March 3, 1892.

No money should be voted to private parties, unless the bill appropriating the same be accompanied by vouchers, showing wherein it was

spent and the absolute necessity of such expense. Believing the bill to be unjust, I vote "no."

WHEREAS, The Pullman Car Company and other corporations running sleepers through and in the State of Iowa have been and are exacting exorbitant rates from the people of said State; and

WHEREAS, As the State grows older, and becomes more densely populated, the gross and net earnings of said companies have been increasing from year to year. The said companies should have favored the rates or charge for berths in the cars of said companies passing through and in the said State. But, whereas, instead, said companies have increased the rates or charges for berths in the cars of said companies passing through and in the said State. And the said Pullman and other companies are receiving eleven per cent per annum on the capital invested in the sleepers or rolling stock of said companies passing through or in the State of Iowa. WHEREAS, We, the minority, protest against the report of Railroad and Commerce Committee on House file No. 154, recommending the same for indefinite postponement. MINORITY COMMITTEE REPORT.

MR. SPEAKER—The undersigned, constituting the Democratic minority of the Committee on Suppression of Intemperance, would report that they are unable to agree with the Republican majority of that committee in their report upon the "Gatch Bill," being substitute for Senate file No. 23, as passed by the Senate, for the following reasons:

That they believe that the majority of the citizens of the State of Iowa are weary of the ineffectual attempts made during the past eight years to enforce prohibition within the State and are satisfied that experience has demonstrated in this and other States that prohibitory liquor laws are not enforceable and do not furnish the best methods by which improper sales of intoxicating liquor can be regulated and intemperance restrained.

That they believe that the majority of the people of the State of Iowa favor the enactment of a fair and reasonable license law with restrictions suitable to prevent and punish violation or evasion, such as was advocated by the Democratic party and described in its platforms of 1889 and 1891, and that there is expected from this Legislature the enactment of a measure of that character.

That the relief asked has not yet been granted; the license bill prepared in accordance with the promises of the Democratic platforms which were endorsed by the votes of a majority of the citizens of the State, has been advocated and supported by every Democratic member of the Senate and House of Representatives, and has been rejected and defeated by Republican votes; that the session is near its close, and if this Gatch bill fails, it will not be possible to pass another measure; and, therefore, while we are not satisfied with and do not endorse all its provisions, we feel that this bill is an improvement upon the present law, and unite in recommending that it do pass.

The following explanations of votes were made:

While in favor of adjournment on March 30th, I am of the opinion that we should not act upon the resolution until we have had an opportunity to examine the bill proposing to make radical changes in the assessment laws.

C. H. ROBINSON.

MR. SPEAKER—It is now apparent that the Ways and Means Committee of both branches of this Legislature are about to report an important measure in relation to taxation, something in which the masses are all interested, and now upon the first ray of light making its appearance, an attempt is being made to smother the same by the passage of this resolution, fixing a certain date for adjournment. I am in favor of an early adjournment, to save all possible expense to the State, but before fixing the date permanently, I desire to see some bill passed that will equalize the burdens of taxation, hence I vote to postpone this question until Monday next.

WM. GLATTLY.

As this Legislature in my opinion has accomplished nothing that is of any material benefit to the State of Iowa, I think it advisable to take our dieing pill on the 30th.

J. M. YOST.

Mr. Chase called his motion to reconsider the vote whereby the concurrent resolution to adjourn *sine die*. the 23d of March.

Motion prevailed.

The question now being on the adoption of the resolution to adjourn on March 23d; it was lost.

Absent or not voting :

Representatives Brooks of Audubon, Coffin, Horstman, Penney, Stone, Ware, Wyckoff—7.

So the resolution was adopted.

The following explanations of votes were filed:

Believing this to be the same old dodge by which after cities, corporations and State institutions have secured what legislation they want they leave the grangers out in the cold by adjournment. I vote "No."

A. J. SOWERS, *of Taylor.*

MR. SPEAKER—As I think a great deal of my constituents and knowing I will have a great deal to answer for this session, I am in favor of beginning to apologize as early as possible, so vote "Aye."

W. J. FELKNER.

Not being satisfied that this Legislature can accomplish its work by adjourning on the 30th of March I vote "No."

W. W. WILLIAMS.

I deem this hasty legislation. I have attended every session of this body but two since it convened. I would not put it out of the power of this House to extend the session if absolutely necessary.

J. S. BOISE.

Mr. Richman filed the following motion:

I move to re-consider the vote by which the House concurred in the resolution of the Senate to adjourn on March 30, 1892.

I wish the bill provided for one hundred cottages, to provide homes for the brave women who took care of their homes while their husbands saved the country. I vote "Aye."

JAMES McCANN.

Mr. Robinson explained his vote as follows:

I believe the families of the indigent soldiers' of Iowa, could be more economically and satisfactorily relieved by an increase of the pittance allowed them at their homes, and I am by no means satisfied that this experiment will be conducive to the happiness of soldiers or his family, but under protest, I will vote to try this plan as experiment. I therefore vote "Aye."

C. H. ROBINSON.

The House having voted down all amendments protecting the State from the support of those receiving large pensions from the government, I vote, "No."

Mr. Kasa explained his vote as follows:

Personally I am opposed to the bill, but receiving petitions only in favor of it, I vote "Aye."

J. O. KASA.

Mr Watkins explained his vote as follows:

I wish to explain my vote. I do not believe that the cottage plan is the best way to render relief to the dependent soldiers and their wives; that said relief should be rendered in the county where they belong, as the petitions to this General Assembly have been more numerous than any other matter. I vote "Aye."

S. H. WATKINS.

Mr. Spearman explained his vote as follows:

I believe we can take care of our soldiers and their wives at their own homes better than they will be at the Soldiers' Home at Marshalltown.

C. F. SPEARMAN.

Mr. Wilson explained his vote as follows:

I favor a county levy which will provide amply for all needy soldiers and their families in preference to the system of grouping them all in a system which may foster many abuses I vote "No."

I. K. WILSON.

Mr. Wilken explained his vote as follows:

Believing that it would benefit the old soldiers more by appropriating the same amount of money and giving it to them, to be used and consumed in their homes, but as a large number of them are requesting the passage of this bill, and being desirous to aid them in their request, therefore I vote "Aye."

F. H. WILKEN.

Also, Senate file No. 337, a bill for an act to provide compensation for Samuel N. Parsons, secretary of the Senate.

SAMUEL N. PARSONS, *Secretary*.

SENATE MESSAGES.

Senate file No. 133, a bill for an act to amend the Military Code and to increase the efficiency of the National Guard. Read first and second times and ordered on file.

On motion of chairman Committee on Appropriations, substitute for Senate file No. 93, a bill for an act making an appropriation for an exhibit of the resources of the state of Iowa in the World's Columbian Exposition of 1893, to be held in the city of Chicago was taken up and considered. At the request of Speaker Mitchell, speaker *pro tem* Van Gilder here took the chair.

Mr. Beem moved to amend section 1 by striking out of line 1, the words and figures "one hundred and twenty-five thousand (125,000)" and insert in lieu thereof "one hundred thousand (\$100,000)."

Mr. Dolph moved the previous question.

Motion prevailed.

On the question, shall the amendment be adopted, Messrs. Beem and Watkins called for the ayes and nays, with the following result:

The yeas were:

Representatives Beach, Beem, Briggs, Britt, Brooks of Boone, Bruce, Carter, Castle, Chase, Crawford, Cunningham, Gilbert, Gillman, Holiday, Holland, Hornish, Jay, Jewell, Johnston, Linderman, Louis, Moore, Patterson, Potter, Robinson, Schrooten, Schultz, Sharpnack, Smyth, Spaulding, Spearman, Stillmunkes, Ware, Warren, Watkins, Welch, Williams, Wyckoff, Yost—38.

The nays were:

Representatives Addie, Austin, Bitterman, Boise, Brooks of Audubon, Campbell, Carpenter, Chamberlin, Clark, Coffin, Coonley, Dayton, Doane, Dolph, Drewry, Ellickson, Felkner, Flanagan, Fuhrmeister, Gardner, Gitchell, Glattly, Goodwin, Guinn, Harriman, Hart, Haselton, Hinman, Hipwell, Hoover, Horton, Jester, Jones, Kasa, Lane, McCann, McNeeley, Marti, Miller, Mitchell, Morison, Morrow, Nemmers, Norris, Penney, Richman, Saberson, Sells, Shriver, Sowers, Springer, Steen, Stone, Stuntz, Wilken, Wilson, Young, Mr. Speaker—59.

Absent or not voting:

Representatives Ellis, Horstman, Smith—3.

So the amendment by Mr. Beem was lost.

Mr. Moore explained his vote as follows:

Believing that the appropriation for the Columbian Exposition should conform to, and be commensurate with Governor Boise' New York speech of raising corn at a loss of sixty-seven cents per acre in Iowa, I am constrained to vote *for* the amendment.

S. H. MOORE.

Mr. Wilson offered the following resolution:

Amend by inserting section 3, the following:

SECTION 3. Provided that no part of this appropriation shall be drawn from the State Treasury until the Iowa Commissioners furnish a satisfactory assurance to the Auditor of State that no part of the Iowa State Exhibit shall be open to spectators on the first day of the week, commonly called Sunday.

Amend further by making section 3, section 4.

In the discussion of the above resolution the facts were brought out that the adoption of the same would endanger the appropriation, for inasmuch as the commissioners directly in charge of the Iowa exhibit have not control of the matter sought to remedy, so the motion was lost.

Mr. Norris moved that the rule be suspended and the bill be read a third time.

On this motion Mr. Gilbert called for the previous question.

On the question "Shall the bill pass?"

The yeas were:

Representatives Addie, Austin, Bitterman, Boise, Britt, Brooks of

Absent or not voting:

Representatives Clark, Ellis, Holland, Horstman, Linderman, Sharpnack, Ware, Welch, Warren, Yost—10

So the bill passed and the title was agreed to.

The following named gentlemen explained their vote as follows:

I do not believe that so large an appropriation is demanded by the people. Those in charge of the measure refuse, when pressed, to furnish any intelligent estimate of the necessary amount. I will not vote for any measure in deference to mere local lobbying and misrepresentation.

J. C. BEEM.

I believe one hundred thousand sufficient, that is as a compromise measure. I vote "Aye."

G. W. WYCKOFF.

Thinking that \$100,000.00 is a sufficient amount to make a fair and reasonable show of all the products and resources of the state of Iowa at the World's Fair. Therefore, I vote "No."

P. STILLMUNKES.

On motion of Mr. Norris the special order set for 4 o'clock was continued until 7:30 p. m.

INTRODUCTION OF BILLS.

By Mr. Coffin, House file No. 525, a bill for an act to legalize the official acts of the town council, ordinances and records, of the incorporated town of Commerce, Polk County, Iowa. Read first and second times and referred to Committee on Judiciary.

By Mr. Smyth, of Des Moines, joint resolution No. 9:

To the Congress of the United States, in reference to the passage of an act to open the mints of the United States to coinage on equal terms of gold and silver:

WHEREAS, The constitution of the United States confers upon Congress the exclusive power to coin money and to regulate the value thereof; and

WHEREAS, In the exercise of this power the first Congress, in providing for the various gold and silver coins which should be coined at the mints of the United States, established as the unit of value the silver dollar containing $371\frac{1}{4}$ grains of pure silver; and

WHEREAS, Said silver dollar has, during almost the entire existence of said Government, been and now is the unit of value; and

WHEREAS, All of the obligations of the Government, the States and the people which are payable in the lawful money of the United States, are, according to the very terms of the contracts, payable either in silver dollars or in gold coins provided for at the option of the debtor; and

WHEREAS, The delegation to Congress of the exclusive right to coin money imposes upon it the corresponding and absolute duty to not only establish mints, but also to coin all the gold and silver bullion into money which the people may bring to said mints, for coinage; and

WHEREAS, The present difference in the commercial value of gold and silver in the ratio of one to sixteen is due entirely to the constantly diminishing supply and increasing demand for gold and the consequent enhancement of its value as compared with other property and not to any depreciation of the value of silver as so compared, and

WHEREAS, Any act of Congress in limiting the supply of money in which the obligations of the people are payable by addicating or refusing to exercise the powers conferred on it, would be a flagrant abuse of its powers and would increase the burdens of the people by increasing the value of the money in which their debts are payable. Therefore,

Be it resolved by the General Assembly of the State of Iowa:

First, That our representatives in Congress be requested and instructed to use every honorable effort for the passage of a law opening the mints of the United States for the coinage of all the legal tender coins of the United States upon equal terms, and requiring that said mints shall coin all gold and silver bullion which may be brought to such mints for coinage, without any discrimination whatever in favor of one metal as against the other.

Second, That if it be deemed wise for the sake of uniformity of value to change the ratio heretofore adopted between gold and silver, the time to change the weight of either the gold or silver coins, that the only honest way this can be done will be to reduce the weight of the gold coins, so as to conform the same to the commercial value of the bullion contained in silver dollars; and that to increase the weight of the silver dollar, so as to conform to the enhanced value of gold, would be to increase the debts of the people 30 per cent by such act of Congress, and would be unjust and oppressive and a burden too intolerable to be borne; and we favor such change as will reduce the weight of the gold coins.

Third, That a copy of this resolution shall be sent to each of our senators and representatives, duly certified.

Ordered passed on file.

HENRY STONE, *Chairman.*

Ordered passed on file.

MINORITY REPORT ON HOUSE FILE NO. 526.

MR. SPEAKER—The undersigned members of the Committee on Congressional Districts would state:

That they dissent from and protest against the report made by a majority of said committee, recommending the passage of House file No. 526, for the following reasons:

First. The acts of the Fifty-first Congress provides that each representative district shall "contain as nearly as practicable an equal number of inhabitants." The ratio of representation in the State of Iowa, based upon the last census, is 173,809 inhabitants for each Congressional district. In the bill we find that in the Eleventh district, located in the northwestern part of the State, where the population is rapidly increasing, 188,955 inhabitants, an excess of 15,146 persons. The excess in population of this district is greater than the number of inhabitants in the counties of Dickinson and Clay, two counties which are included in the proposed district. We find that the Second district, as proposed by this bill, has a population of 190,228 inhabitants, being an excess of 17,114 persons.

Second. Beside the above mentioned unequal apportionments, we find that the bill has been framed entirely in the interest of the republican party, disregarding all law and equity in such cases made and provided for.

Therefore we protest against the passage of House file No. 526, and recommend that House file 502 be substituted in lieu thereof, and when so substituted, that the same do pass.

All of which is respectfully submitted.

WM. GLATTLY.
F. H. WILKEN.
J. F. HARMON.

For the reason that the railroad commissioners request an extension of time upon the enforcement of the present statute, in order that a uniform system of safety couplers be adopted, I vote "aye."

J. F. DAYTON.

I understand this bill has received the unanimous endorsement of the Iowa railroad commissioners and in the absence of information to the contrary am disposed to favor the recommendation of that commission and vote "aye."

R. W. BRIGGS.

MR. SPEAKER—I believe if the railway companies will carry out the present law in good faith, the Twenty-fifth General Assembly will grant the extension of time if found to be too great a hardship to the companies.

W. J. FELKNER.

As this bill is endorsed by the railroad commissioners, and I depend much upon their opinion in such matters, I vote "aye."

C. H. ROBINSON.

MR. SPEAKER—Understanding that the railway commissioners favor this bill I vote "aye."

JNO. SPRINGER.

As this bill is endorsed by the railroad commissioners, and the railroad companies are under the control of said commissioners, therefore I vote "aye."

MR. SPEAKER—I desire to explain my vote. Understanding that the railroad commission favor this bill, I vote "aye."

J. G. SMITH.

MR. SPEAKER—Having been informed by the railroad commission that it would be impossible for the railroad companies to comply with the law in the time given them by the law as it now is, and thinking more time should be given them, I vote "aye."

J. F. AUSTIN.

MR. SPEAKER—I understand that the railroad commissioners of the State favor an extension of time in this matter, and believing that it is impossible for the railroad companies of this State to successfully comply with this law until a uniform coupler is adopted by the several States and enforced by National law, I therefore vote "yea."

A MOTION TO ADJOURN.

Farewell Addie and Austin; farewell Beach and Beem.
 From Bitterman, Bolse and Briggs, it would seem,
 That now we must part. The last roll-call is o'er,
 And, "Britt, Brooks of Audubon, Brooks of Boone," never more
 Shall we hear. Bruce, Campbell, Carpenter and Carter must part,
 And to leave Castle, Chamberlain and Chase breaks my heart.
 Clark, Coffin, Coonley and Crawford must leave,
 And Cunningham, Dayton and Doane will all grieve,
 That Dolph, Drewry and Ellickson, and Ellis P. B.,
 Fuhrmeister and Felkner, and Flanagan J. D.,
 And Gardner and Gilbert and Gillman, we know,
 And Gitchell and Glattly and Goodwin must go.
 Guinn, Harriman, Hart and Haselton too,
 To Hinman, Hipwell and Holiday now bid adieu.
 Holland, Hoover and Hornish, are ready to cry,
 While Horstman and Horton, both whipping an eye,
 As they look upon Jay, and Jester and Jewell.
 Tell Johnston, Jones, Kasa and Lane it is cruel,
 That Linderman, Louis, McCann and Marti,
 Mitchell, Miller, McNeeley, no Moore we shall see,
 Together with Morrison, Nemmers and Morrow,
 Norris, Penny and Patterson, all shaken with sorrow,
 Potter, Richman and Robinson, Saberson, Schrooten.
 (I hope that none in my haste I've forgotten.)
 Shultz, Seils, Sharpnack, Shriner and Smith, with an "i",
 Sadly gaze on Sowers, Spaulding, Spearman and Smyth, with a "y".
 Springer and Stillmunkes, Steen, Stone and Stuntz,
 Van Gilder and Ware and Warren at once,
 Take Watkins and Welch and Wilken in hand,
 While Williams and Wilson in readiness stand,
 To take a last shake, when farewells are begun,
 With the last on the list, Wyckoff, Yost and Young.
 The friendships we've formed, the few weeks that have passed,
 I hope and believe, that through live they will last.
 I know that in sorrow, from each one I part.
 I believe the same sadness spreads over each heart.
 For I see the sad looks on each face as I turn,
 And, now Mr. Speaker, I move we adjourn.

—C. H. Robinson.

The hour of 12:30 p. m. having arrived the speaker declared the House adjourned *sine die*.
